### Effortless Finger-touch Adjustment

Innovative weight balance design allows smooth up-and-down movement up to 15.7" (400mm) of a single 75" to 90" display with just a light touch, eliminating the need for motors or power connection.

### Supports Heavy Displays

Heavy-duty steel construction confidently handles large displays ranging from 132.3 lbs to 198.4 lbs (60 kg to 90 kg), providing stable and secure mounting in any environment.

### Versatile Professional Applications

Perfect solution for medical space, healthcare facilities, school, conference room and trade shows where reliable display positioning and professional presentation are essential.

### Space-efficient Design

Compact construction allows the mount to hide discreetly behind the screen when not in use, maintaining a clean, professional appearance in any setting.

### Durable Premium Finish

High-quality powder-coated finish delivers both stylish appearance and practical anti-scratch protection for long-lasting performance.

### INDUSTRY FIRST DESIGN

Our innovative long opening design allows grommet mounts to sit flush against the wall. Greater compatibility for grommet mounting where the desk has a pre-drilled grommet hole near the edge of the desk.

### SOLID CONSTRUCTION

Supports the entire weight of your monitor and stand with rigid steel construction. Structural integrity is further increased with additional lip design for the top plate.

### UNMATCHED COMPATIBILITY

Installs securely and safely on your desk and supports virtually all monitor stands with a c-clamp or grommet mount design. Keep your tabletop in pristine condition with the included foam pads.

### INCREASED STABILITY

Helps reduce tabletops from being deformed over time with the plate's large surface area for dispersing multiple stress points.

### Universal Fit

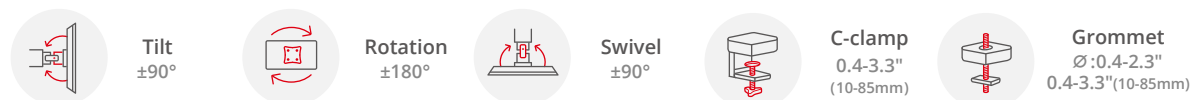

Compatible with most 13" to 32" flat and curved monitors in the market; equipped with 75x75mm and 100x100mm VESA mounting holes. Our premium desk mount supports screen weight up to 19.8 lbs (9 kg).

### Promotes A Better Posture

This gas spring monitor arm is height-adjustable from 6.8" to 19.5" (which also passed 10,000-cycle motion test). With the right viewing angle, it helps relieve the strain on your eyes and neck to prevent possible ergonomic injuries that build up over time due to poor posture.

### Stable & No Sagging

The adjustable Gas Shock tension holds your monitor at the right height without sagging over time. Our mounting arm is built to maintain monitor stability. The tension can be tightened or loosened using the 6mm Allen Key included in with the product.

### Sturdy iPad Kiosk Stand

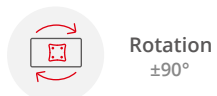

Constructed with solid metal with lock enabled enclosure adds durability and security when displaying an iPad or Galaxy Tab as a POS or as an information kiosk in public areas. Helps to add an extra security for owners to discourage theft.

### Upgraded Size for Most iPad Models

Upgraded from the previous version, this new version is fully enhanced to fit the following iPad size models on the market: iPad 5 & 6 (9.7") / 7, 8 & 9 (10.2") / 10 (10.9"), iPad Air 9.7" / 10.5" / 10.9", iPad Pro 9.7" / 10.5" / 11" and also Samsung Galaxy Tab A 2019 (10.1") / Tab A7 (8.7") / Tab S6 Lite (10.4"). Product includes 6 different tablet brackets for you to choose from for the iPad or Galaxy Tab to be secured firmly inside the holder.

### Full Motion Security Stand

The stand holder is capable of 90 degrees rotation and 75 degrees of tilting. You can also adjust the holder into portrait or landscape orientation for optimal viewing and optimized application. The enclosure also supports VESA standard to mount on a compatible VESA mount or stand.

Since 1985, SIIG Inc. has led the way in creating IT and AV connectivity solutions you can trust. Built on core values of professional integrity with customer satisfaction as the focus point, our company is committed to providing top-notch service, support, and product solutions that elevate your AV and IT user experience. As our 30+ year legacy continues, our team will diligently contribute insights and add unique value to various industry markets on how people can better connect with technology.
