

Product Lineups

350W / 600W / 700W / 1000W / 1200W
Industrial USB-C PD Charging Stations

Our Industrial USB-C PD Charging Stations offer a total solution for diverse industries. Six models from **350W** to **1200W** deliver stable, efficient, and safe power.

16-Port 600W

ID-US0A11-S1

- 16 ports, 600W (**30W per port**)
- UL certified for maximum safety

[Watch Video ▶](#)

16-Port 600W

ID-US0B11-S3

- 16 ports, 600W total output
- 2 ports **100W** PD + 14 ports **30W**
- Built-in **5Gbps** USB Hub

16-Port 1000W

ID-US0C11-S1

- 16 ports, **1000W** total output
- Up to 10 ports at **100W** or 16 ports at 60W
- Ideal for high-power devices and professional use

8-Port 350W

NEW

ID-US0E11-S1

- 8 ports, **350W** total output
- Up to 45W per port
- UL certified for safe and efficient charging

10-Port 700W

NEW

ID-US0F11-S1

- 10 ports, **700W** total output Dual Core power design
- Up to **65W** per port
- UL certified for enhanced stability

16-Port 1200W

NEW

ID-US0G11-S1

- 16 ports, **1200W** total output Dual Core power design
- Up to **100W** per port or 16-ports at 65W
- Ideal for large-scale industrial and professional use

From factories to hospitals, warehouses, and retail stores, they ensure seamless operation with scalable and reliable charging.

Powering the Future of Industry

Unmatched reliability for every device on the production line.

www.siig.com

High-Efficiency & Stable Power Delivery

Deliver continuous and reliable power for multiple devices simultaneously.

Intelligent Safety Protection

Built-in safeguards ensure long-term durability and secure operation.

Flexible Scalability & Application

Supports a wide range of devices, from handheld tools to industrial control systems.

Safety, Scalability, Stability

Our **350W / 600W / 700W / 1000W / 1200W Industrial USB-C PD Charging Stations** are engineered to keep production lines moving without interruption. With high-efficiency power delivery, intelligent protection, and scalable design, they ensure every device—from tools to control systems—runs at its best.

Power You Can Trust, Care You Can Count On

Industrial USB-C PD Charging Stations deliver safe, intelligent, and scalable power for critical medical devices

From hospitals to emergency care units

We deliver trusted power solutions that support seamless clinical workflows and safeguard patient care.

High Efficiency Power

Deliver nonstop power so critical medical devices are always ready.

Intelligent Safety Protection

Built for safety with certified protection to meet demanding clinical environments.

Flexible Scalability

Supports tablets, monitoring systems, and diagnostic tools in clinical environments.

www.siiig.com

In healthcare, reliability saves lives

Our 350W / 600W / 700W / 1000W / 1200W Industrial USB-C PD Charging Stations deliver safe, intelligent, and scalable power for critical medical devices.

Unstoppable Power for Logistics

Industrial USB-C PD Charging Stations –
keeping every device charged, every process efficient.

Seamless Operations

Continuous power supply keeps essential devices running, reducing downtime in warehouses and logistics hubs.

Smart & Safe Power

Built-in safety protection against overload, overheating, and short circuits safeguards both devices and operations.

Scalable for Every Workflow

Flexible scalability supports various logistics applications, from handheld scanners to tablets and wearable devices.

From warehouses to distribution hubs

we provide the energy backbone that ensures seamless operations and faster delivery.

Powering Logistics Without Delay

Our 350W / 600W / 700W / 1000W / 1200W Industrial USB-C PD Charging Stations provide stable, intelligent, and scalable power to keep scanners, tablets, and wearables fully operational.

Enhancing Retail Efficiency & Experience

By providing scalable and safe charging solutions, supermarkets and retail chains can improve staff efficiency, minimize downtime, and deliver superior customer experiences.

www.siig.com

Retail environments demand continuous device availability

Our **350W / 600W / 700W / 1000W / 1200W Industrial USB-C PD Charging Stations** ensure that staff tablets, handheld scanners, and mobile systems stay powered throughout operations.

Reliable Power for Retail Operations

Industrial USB-C PD Charging Stations – Ensuring employee devices stay charged for efficient service.

High-Efficiency & Stable Power Delivery

Keeps staff tablets and handheld devices powered all day.

Intelligent Safety Protection

Certified safeguards ensure safe and reliable operation in busy retail settings.

Flexible Scalability & Application

Adaptable for POS systems, scanners, and mobile devices in supermarkets and retail stores.
