

Medium / Small Sports Bars Solution

Challenge

Sports bars are a fun place for friends to come together to enjoy a drink and watch a live game. Sports bars are challenged with creating an immersive live sports experience on a budget with high definition displays at different angles to show a variety of sports events.

Solution

SIIG's **Sports Bars Solution** offers versatile and cost-effectively options to stream HD media contents from Cable/Satellite box, AV receiver, Blu-ray player, or PC to the remote displays across the entire venue. It significantly enhances digital signage capacity without the cost of expensive, long distance HDMI cables.

Equipment	HDMI HDBaseT 4x4 4K Matrix Kit (CE-H23W11-S1)
Source Input	Supports up to 4 source inputs such as Cable/Satellite box, AV receiver, DVD or PC
Source Output	Supports up to 4 TVs

For sports bars to entice their customers with highly anticipated sporting events via high definition displays with reliable signal quality for a much improved and enjoyable customer experience

- Extends HD digital video and audio signals to distant displays while maintaining high quality and reliable signal via cost-saving and economical Cat6 cable
- Delivers stunning and crystal clear Full HD video content with high fidelity digital audio sound quality to keep your customers entertained
- Power Over Cable (PoC) technology integrated for greater installation flexibility where power outlets are not accessible
- EDID management feature provides maximum compatibility to support the widest range of TVs/displays
- Premium quality metal housing ensures durability and minimizes interference to ensure smooth program broadcasting
