

# 1 to 4 Full HD **Wireless HDMI Extender** with Loopout & IR Kit

HDMI audio/video signals  
**up to 656ft**

Part# CE-H27611-S1, CE-H27711-S1

## Wirelessly extends HDMI audio/video signals to remote HDMI display up to 656ft with IR control

1x HDMI in 1x HDMI (Loop out) 1x IR out

1x HDMI out 1x IR in

- Wireless transmits HDMI signals with stereo audio to a remote HDMI display up to 656ft (200m) line of sight  
**Note: the transmission distance will vary depending on building layout, electronic interference, walls and partitions, other environmental conditions, and maybe much less than the maximum**
- 5GHz dual antenna wireless technology prevents signal interference and provides optimal reception quality
- Features direct 1-to-1 connection or 1-to-many connection and allows up to 4 receiver units to be displayed simultaneously. (Full HD Wireless Extender- Receiver part# CE-H27711-S1 sold separately)
- Supports Full HD video resolution up to 1080p (1920x1080) @60Hz for a clear video quality and LPCM 2.0-ch.
- HDMI loop-out on the transmitter to connect to a local display for monitoring of the extended display
- Built-in one-way IR extension modules allow remote control of playback at the distant display

### Common Applications

- Video conference room, Show room, Educational facilities, Broadcast, Digital signage, Control center, Security center, Indoor and outdoor advertising, Home entertainment room, Concert
