

# 2-Port **HDMI** **Splitter** with EDID

**Resolution: 8K@60/50/30/24Hz,  
4K@144/120/60/50Hz, 1080p, 1080i,  
720p, 576p, 576i, 480p@60Hz**

Part# CE-H27N11-S1

*Splits a single HDMI video/audio source to two 8K@60Hz or 4K@144Hz HDMI displays simultaneously, making it perfect for gamers*

- Compliant with HDCP 2.3/2.2/1.4 with 40Gbps bandwidth
- Experience stunningly clear and vibrant images with support for 8K resolution, HDR10+, and 12-bit deep color. Watch your favorite movies and TV shows in breathtaking detail, or game with ultra-smooth frame rates on two 4K@144Hz displays
- Supports VRR (Variable Refresh Rate) and ALLM (Auto Low Latency Mode) technology to optimize gaming experience without tearing. **\*Note: VRR requires copy EDID mode and identical displays**
- Easily switch between EDID modes with the dedicated EDID button, provides Auto/Copy/Downscaler modes
- Supports a wide range of audio formats, including LPCM, DTS Audio, DTS-HD, Dolby Digital, Dolby Digital Plus, and Dolby TrueHD audio. HDMI audio format supported: LPCM 2/5.1/7.1, DTS 5.1/7.1, Dolby 5.1/7.1 & Atmos (Atmos requires copying the TV EDID)
- Supports CEC (Consumer Electronics Control) function on HDMI output 1, allowing you to control connected devices with your TV remote

## Common Applications

- Live game streaming, Home theater, TV Broadcast, Audio/Video conference room, Show room, Media room, Photo shooting studio, Photography center
