

# HDMI 4K30Hz KVM over IP Extender

*Extends HDMI Signals  
up to 394ft/120m*

Part# CE-H27R11-S1, CE-H3KE01-S1

## Reliable 394ft Long-Range HDMI & KVM Extension Over IP

- Transmit HDMI and USB signals over Cat6/7 cable to a remote display with smooth performance
- Delivers stunning 4K30Hz UHD resolution and automatically downscales to 1080p on the receiver for compatibility with a wider range of displays
- Control the connected computer using USB keyboard and mouse from the receiver side
- Use unmanaged Gigabit switches to expand to multiple receivers (CE-H3KE01-S1 sold separately)
- Monitor content locally by connecting a display directly to the transmitter
- Quick troubleshooting with dedicated reset buttons on both transmitter and receiver units
- Durable metal housing with built-in Lightning, Surge, and ESD protection

### Common Applications

- Data center & IT management, Educational facilities, Training room, Surveillance control center
