

HDMI Over IP Extender with IR

*Extends HDMI Signals
up to 492ft/150m*

Part# CE-H3IP01-S1 (Kit), CE-H3IP11-S1 (RX)

Scale Your HDMI Over IP with IR Control for Maximum Flexibility

- Extends HDMI A/V signals up to 492ft (150m) over a single Cat6 cable for long-distance distribution
- Supports One-to-Many distribution, one transmitter connects to up to 253 receivers via standard unmanaged Gigabit switches. Many-to Many distribution is also supported via VLAN setup. (additional receivers sold separately)
- Provides clear 1080p@60Hz HDMI video resolution, ensuring stable playback for presentations, signage, and multimedia applications
- Delivers stereo audio through HDMI and features 3.5mm output jacks on both transmitter and receiver for PCM 2CH audio extraction
- Integrated IR pass-through enables remote control of the source device directly from the RX location
- Durable metal housing with ventilation, includes mounting brackets for flexible installation, and features plug-n-play setup with no software required

Common Applications

- Classroom, Lecture hall, Office, Meeting room, Control center, Sport bar, Super market, Hotel
