

Full HD **Wireless** **HDMI Extender** with IR

*Extends HDMI Signals
up to 492ft/150m*

Part# CE-H3WE11-S1 (Kit), CE-H3WE21-S1 (RX)

Control & Extend HDMI Wirelessly with IR

1x HDMI In 1x IR Sensor 2x USB-C power 1x Micro USB → 1x HDMI Out 1x Loopout 1x IR Out

- Transmits Full HD 1080p@60Hz HDMI signals wirelessly up to 492ft (150m) in a line-of-sight environment
- Utilizes 5GHz wireless with low latency for smooth HDMI transmission, plus IR extension for remote source control. **Note: Transmission distance may vary by environment**
- Dual 5dBi antennas and 2T2R MIMO technology prevent interference and ensure optimal reception quality
- Supports 1080p HDMI input and loop-out for local monitoring while extending IR signals to control playback devices remotely
- Supports up to 4 receivers from a single transmitter, ideal for multi-display setups in classrooms, exhibitions, and signage applications

Common Applications

- Home theater, Conference room, Classroom, Church, Hotel, Restaurant, Shopping mall
