

Monitor Desk Mount - 13" to 27"

Installation Instructions

Unpacking

- Carefully remove the contents and lay out on cardboard or other protective surface
- Check package contents against the parts list to ensure that all components were received undamaged. Do not use damaged or defective parts
- Carefully read all instructions before attempting installation

Safety Information

- Use proper safety equipment during installation
- If you don't understand the installation instructions, please consult an installation specialist
- This mount contains small parts which can act as a choking hazard if swallowed
- Do not use this product for any purpose or in any configuration not explicitly specified in these instructions

Tools Required

- Phillips screwdriver
- 3/8" drill bit (for Grommet installation)
- Electric drill (for Grommet installation)

Parts List

a - (1x) 35mm
Tube Support

b - (1x) C-clamp
brace

c - (1x) C-clamp

d - (3x) C-clamp
brace bolt

e - (1x) Vesa plate
with Arm

f - (1x) 3/8"
Grommet bolt

g - (1x) Grommet
plate

h - (1x) Wing
nut

i - (4x) M4x12 Bolt

j - (4x) M4x30 Bolt

k - (8x) M4
Washer

l - (4x) M4
Spacer

m - (2x) Wire Clip

n - (2x) M10x15
Bolt

o - (1x) Allen
Key

p - (2x) Spare
Plastic Cover

Installation

Caution: This monitor desk mount must be securely attached to the horizontal desktop. If the mount is not properly installed it may fall, resulting in possible injury and/or damage.

1A) C Clamp Installation

1. Install the C-clamp brace (b) to the 35mm Tube Support (a) using 3 C-clamp brace bolts (d), see Figure 1.
2. Install the C-clamp (c) to the 35mm Tube Support assembly according to the thickness of the desktop. The thickness can be changed in three positions. Connect it using 2 M10x15 Bolts (n) and tighten using the Allen Key (o). Tighten the C-clamp to the desktop using the 2 eye bolts, see Figure 2.
3. Install the Plastic cap over the 35mm Tube support, see Figure 2a. This step is optional. The plastic cap covers the mounting surface to provide a cleaner installation.

Figure 1

Figure 2

Figure 2a

1B) Existing Grommet Hole Installation

If the existing grommet hole comes with a plastic protector, remove it to ensure a flat surface before installing the desk mount.

1. Thread the 3/8" Grommet bolt (f) into the center screw hole located on the bottom of the 35mm Tube Support (a). Turn the grommet bolt so that the top is protruding approximately 1/4" above the screw hole.
2. Position the 35mm Tube Support (a) on the mounting surface and secure using the Grommet plate (g) and Wing nut (h), see Figure 3.
3. Install the Plastic cap over the 35mm Tube Support. This step is optional. The plastic cap covers the mounting surface to provide a cleaner installation.

1C) Self Drilled Grommet Hole Installation

1. Position the 35mm Tube Support (a) on the mounting surface and mark the center hole. Remove the tube support. Drill a 3/8" (10mm) diameter hole at the marked position through the mounting surface.
2. Thread the 3/8" Grommet bolt (f) into the center screw hole located on the bottom of the 35mm Tube Support (a). Turn the grommet bolt so that the top is protruding approximately 1/4" above the screw hole.
3. Place the tube support on the mounting surface and secure using the Grommet plate (g) and Wing nut (h), see Figure 4.
4. Install the Plastic cap over the 35mm Tube Support. This step is optional. The plastic cap covers the mounting surface to provide a cleaner installation.

2. Install the Vesa Plate with Arm (e) to the tube support. Tighten the clamp bolt using the Allen Key (o), see Figure 5.

Caution: When installing the VESA Plate with Arm (e), DO NOT over tighten the clamp bolt. The VESA Plate with Arm is intended to rotate (360 degrees) and is not meant to be attached in a fixed position. Tighten the bolt only tight enough to keep the VESA Plate with Arm at the desired height position. Over tightening the bolt may result in damage to the clamp.

Figure 5

3. Mount the monitor to the Vesa plate.
 - 3-1. For flat back monitors use M4x12 Bolt (i) and M4 Washer (k).

Flat Back Monitor

3-2. For curved back monitors use M4 Spacer (l), M4x30 Bolt (j), and two M4 Washers (k).

Curved Back Monitor

4. Adjust the height and install the Wire Clips (m).

Adjust Height

Install Wire Clips

5. Check the tightness, arrange the cables through the wire clips, and make any final adjustments.
Note: Remove the plastic covers to access the tightening screw.

Check Tightness

Arrange Cables

Maintenance

Check the mounting screws every two months for tightness.

Technical Support and Warranty

QUESTIONS? SIIG's **Online Support** has answers! Simply visit our web site at www.siig.com and click **Support**. Our online support database is updated daily with new drivers and solutions. Answers to your questions could be just a few clicks away. You can also submit questions online and a technical support analyst will promptly respond.

SIIG offers a 5-year manufacturer warranty with this product. This warranty covers the original purchaser and guarantees the product to be free of any defects in materials or workmanship for five (5) years from the date of purchase of the product.

SIIG will, at our discretion, repair or replace (with an identical product or product having similar features and functionality) the product if defective in materials or workmanship. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Please see our web site for more warranty details.

If you encounter any problems with this product, please follow the procedures below.

A) If it is within the store's return policy period, please return the product to the store where you purchased from.

B) If your purchase has passed the store's return policy period, please follow the steps below to have the product repaired or replaced.

Step 1: Submit your RMA request.

Go to www.siig.com, click **Support**, then **Request A Product Replacement** to submit a request to [SIIG RMA](#) or fax a request to 510-657-5962. Your RMA request will be processed, if the product is determined to be defective, an RMA number will be issued.

Step 2: After obtaining an RMA number, ship the product.

- Properly pack the product for shipping. All accessories that came with the original package must be included.
- Clearly write your RMA number on the top of the returned package. SIIG will refuse to accept any shipping package, and will not be responsible for a product returned without an RMA number posted on the outside of the shipping carton.
- You are responsible for the cost of shipping to SIIG. Ship the product to the following address:

SIIG, Inc.

6078 Stewart Avenue

Fremont, CA 94538-3152, USA

RMA #: _____

- SIIG will ship the repaired or replaced product via Ground in the U.S. and International Economy outside of the U.S. at no cost to the customer.

About SIIG, Inc.

Founded in 1985, SIIG, Inc. is a leading manufacturer of IT connectivity solutions (including Serial ATA and Ultra ATA Controllers, FireWire, USB, and legacy I/O adapters) that bridge the connection between Desktop/Notebook systems and external peripherals. SIIG continues to grow by adding A/V and Digital Signage connectivity solutions to our extensive portfolio. All centered around the distribution and switching of A/V signals over CAT5/6, these products include matrix switches, distribution amplifiers, extenders, converters, splitters, cabling, and more.

SIIG is the premier one-stop source of upgrades and is committed to providing high quality products while keeping economical and competitive prices. High-quality control standards are evident by one of the lowest defective return rates in the industry. Our products offer comprehensive user manuals, user-friendly features, and most products are backed by a lifetime warranty.

SIIG products can be found in many computer retail stores, mail order catalogs, and e-commerce sites in the Americas, as well as through major distributors, system integrators, and VARs.
