

# Portable Battery Charger - 7200

## Quick Installation Guide

---

### Introduction

---

The *Portable Battery Charger - 7200* easily charges electronic devices while on the go, including iPhone® / iPod® / iPad®, mobile phones, PDAs, portable video games, MP3 players and more.

### Key Features and Benefits

- High-quality rechargeable Lithium-polymer battery recharges easily via computer USB port (with the included USB charging cable) or your USB wall charger
- Extends mobile phonetalk time up to 40 hours, up to 50 hours of video, or up to 200 hours of music (based on iPhone® 5, actual results will vary depending on your device)
- Compatible with any USB-powered portable device

### Serial Number Sticker

For future product return or exchange, this serial number is required. Please keep it for your reference.

Serial Number

Part Number

## Package Contents

- *Portable Battery Charger - 7200*
- USB charging cable
- Quick installation guide

## Layout

**Figure 1: Portable Battery Charger - 2400**

**Figure 2: USB Charging Cable Tips**

**\*Note:** Tip may vary slightly from image shown

## **LED Indicators**

---

The LEDs display the battery life/charging status of the Lithium-polymer battery.

- 1 LED ~ 25% charge
- 2 LEDs ~ 50% charge
- 3 LEDs ~ 75% charge
- 4 LEDs - Fully charged

## **Checking the Charge Capacity of the Lithium-polymer Battery**

---

Press and hold down briefly the power button to display the status of the Lithium-polymer battery. The LEDs will go off automatically in 10 seconds or you can press and hold down the power button again.

## Operating Instructions

---

### Charging the Lithium-polymer Battery using a Computer

1. Connect the Micro USB tip of the included USB charging cable into the **INPUT** port (Micro USB port) of the *Portable Battery Charger - 7200*, see **Figure 3**.
2. Connect the USB Type A tip of the included USB charging cable to an available USB port of your desktop or notebook computer (make sure the system is turned on) and the charging process will begin automatically.
3. During the charging process, the blinking LED will move gradually to the next LED as the battery charges. When the Lithium-polymer battery is fully charged 4 LEDs will be on.

Figure 3

## Charging the Lithium-polymer Battery using an AC Adapter

1. Plug the MicroUSB tip of the included USB charging cable into the **INPUT** port (Micro USB port) of the *Portable Battery Charger - 7200*, see **Figure 4**.
2. Connect the USB Type A tip of the included USB charging cable to an AC power adapter (not included) with a 5V USB Type A charging port, see **Figure 4**.
3. Plug the AC power adapter into a reliable power outlet and the charging process will begin automatically.
4. During the charging process, the blinking LED will move gradually to the next LED as the battery charges. When the Lithium-polymer battery is fully charged 4 LEDs will be on.

**Figure 4**

## Charging Portable Devices using the included USB Charging Cable

When your portable device is out of battery, you can recharge it with the *Portable Battery Charger - 7200* easily. Just make sure the *Portable Battery Charger - 7200* is fully charged before proceeding.

1. Connect the USB Type A tip of the included USB charging cable to the **OUTPUT** port (USB Type A port) of the *Portable Battery Charger - 7200*. See **Figure 5**.
2. Plug the Micro USB tip of the included USB charging cable into the Micro USB charging port of your portable device. See **Figure 5**.
3. Press and hold down briefly the charger's power button until the LEDs come on to signal charging has begun. If you need to stop charging at any time, simply press and hold down the charger's power button again until the LEDs go off or unplug the charging cable from the portable device.

**Figure 5**

## Charging Portable Devices using the Device's USB Charging Cable

When your portable device is out of battery, you can recharge it with the *Portable Battery Charger - 7200* easily. Just make sure the *Portable Battery Charger - 7200* is fully charged before proceeding.

1. Connect the USB charging cable (supplied with the device) to your portable device.
2. Plug the Type A USB connector of the USB charging cable (supplied with the device) into the **OUTPUT** port (USB Type A port) of the *Portable Battery Charger - 7200*. See **Figure 6**.
3. Press and hold down briefly the charger's power button until the LEDs come on to signal charging has begun. If you need to stop charging at any time, simply press and hold down the charger's power button again until the LEDs go off or unplug the charging cable from the portable device.

# Technical Support and Warranty

---

**QUESTIONS?** SIIG's **Online Support** has answers! Simply visit our web site at [www.siig.com](http://www.siig.com) and click **Support**. Our online support database is updated daily with new drivers and solutions. Answers to your questions could be just a few clicks away. You can also submit questions online and a technical support analyst will promptly respond.

SIIG offers a 2-year manufacturer warranty with this product. This warranty covers the original purchaser and guarantees the product to be free of any defects in materials or workmanship for two (2) years from the date of purchase of the product.

SIIG will, at our discretion, repair or replace (with an identical product or product having similar features and functionality) the product if defective in materials or workmanship. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Please see our web site for more warranty details.

If you encounter any problems with this product, please follow the procedures below.

A) If it is within the store's return policy period, please return the product to the store where you purchased from.

B) If your purchase has passed the store's return policy period, please follow the steps below to have the product repaired or replaced.

**Step 1:** Submit your RMA request.

Go to [www.siig.com](http://www.siig.com), click **Support**, then **REQUEST A PRODUCT REPLACEMENT** to submit a request to [SIIG RMA](#) or fax a request to 510-657-5962. Your RMA request will be processed, if the product is determined to be defective, an RMA number will be issued.

**Step 2:** After obtaining an RMA number, ship the product.

- Properly pack the product for shipping. All accessories that came with the original package must be included.
- Clearly write your RMA number on the top of the returned package. SIIG will refuse to accept any shipping package, and will not be responsible for a product returned without an RMA number posted on the outside of the shipping carton.
- You are responsible for the cost of shipping to SIIG. Ship the product to the following address:

**SIIG, Inc.**

**6078 Stewart Avenue**

**Fremont, CA 94538-3152, USA**

**RMA #:** \_\_\_\_\_

- SIIG will ship the repaired or replaced product via Ground in the U.S. and International Economy outside of the U.S. at no cost to the customer.

## About SIIG, Inc.

---

Founded in 1985, SIIG, Inc. is a leading manufacturer of IT connectivity solutions (including Serial ATA and Ultra ATA Controllers, FireWire, USB, and legacy I/O adapters) that bridge the connection between Desktop/ Notebook systems and external peripherals. SIIG continues to grow by adding A/V and Digital Signage connectivity solutions to our extensive portfolio.

SIIG products offer comprehensive user manuals, many user-friendly features, and are backed by an extensive manufacturer warranty. High quality control standards are evident by the overall ease of installation and compatibility of our products, as well as one of the lowest defective return rates in the industry. SIIG products can be found in computer retail stores, mail order catalogs, through major distributors, system integrators, and VARs in the Americas and the UK, and through e-commerce sites.
