

**Dear Valued Customer**

(JUST WANTED YOU TO KNOW)

**WE REALLY  
APPRECIATE  
YOUR PURCHASE**

***~thank you~***

## **Features**

- Compliant with PCIe 2.1 with up to 5.0 GT/s
- Compatible with NBASE-T Alliance PHY Specification
- Supports 4 Multi-Speed of 10M/100M/1G/2.5G bps Ethernet
- Compatible with IEEE 802.3, 802.3u, 802.3ab
- Supports IEEE 802.3bz (2.5GBase-T)
- Supports IEEE 802.1Q VLAN tagging
- Supports IEEE 802.3az (Energy Efficient Ethernet)
- Supports jumbo frame to 16K bytes for higher and better data throughput
- Supports Full Duplex flow control IEEE 802.3x
- Supports Wake-On-LAN and 'RealWoW!' Technology (Remote wake-up)

## **Package contents**

- Single 2.5G Gigabit Ethernet PCIe (LB-GE0611-S1)
- Dual 2.5G Gigabit Ethernet PCIe (LB-GE0711-S1)
- Driver CD
- Quick Start Guide

# System Requirements

1. An available PCIe slot
2. Windows® 10 / 8.1 / 7 (32-/64-bit)
3. Windows® Server 2012 / 2008 R2 / (32-/64-bit)

## Driver Installation

1. Please find the system folder that you are using on driver CD
2. Click "Setup.exe" to install the driver
3. Follow the Installation steps to complete the driver Installation

**If your system has the built-in driver can use directly driver install is not necessary.**
