- MacOS support SST (splitter) mode

Package contents

- USB-C to Multi-Video MST Hub with PD 3.0
- Quick Start Guide

System Requirements

- USB-C Port (Thunderbolt 3 compatible)
  device with DP Alt mode support
- Windows® 10 / 8 .1/ 8 / 7 (32/64 bit)

Layout

1. **USB-C PD port:** support PD charging 100W & PD 3.0
2. **DisplayPort:** Max 3840x2160@60Hz.
3. **HDMI port:** Max 3840x2160@30Hz
4. **VGA port:** Max 1920x1080@60Hz
5. **USB-C host port connect to laptop**

Note:

1. The source USB-C output must support DisplayPort Alternate (DP Alt) mode or Thunderbolt 3 technology for the dock to work properly. Please verify with your computer manufacturer.
2. The computer and power adapter must support PD 3.0 specification, otherwise the docking will reset when power delivery is disconnected
3. Mac OSes do not support MST, the Hub becomes a splitter displaying the same content on both displays
4. When DP or HDMI use 1080p resolution, please use 1080p moniror. 4K monitor downgrade resolution to 1080p may has compatible issue.
5. Intel graphic card can only support maximum three video output. You may need to turn off laptop's display.

MST Resolution Table

DP	4K@60
HDMI	4K@30
VGA	1080p@60
DP + HDMI	4K@30 + 4K@30
HDMI + VGA	4K@30 + 1080p@60
DP + VGA	4K@60 + 1080p@60
DP +HDMI + VGA (1)	4K@30 + 1080p@60 + 1080p@60
DP +HDMI + VGA (2)	1080p@60 + 4K@30 + 1080p@60

SST Resolution Table

DP	4K@60
HDMI	4K@30
VGA	1080p@60
DP + HDMI	4K@30 + 4K@30
HDMI + VGA	1080p@60 + 1080p@60
DP + VGA	1080p@60 + 1080p@60
DP +HDMI + VGA	1080p@60 + 1080p@60 + 1080p@60
