

**Dear Valued Customer**

(JUST WANTED YOU TO KNOW)

**WE REALLY  
APPRECIATE  
YOUR PURCHASE**

***~thank you~***

## **Features**

- Support data transfer rates up to USB 3.1 Gen2 10Gb/s per port.
- Backward compatible with USB 2.0/1.1 devices
- Support UASP (USB Attached SCSI Protocol)
- Each port provides power output up to 900mA
- PCI-Express 3.0 x4
- Windows® 10 / 8.1 build-in driver

## **Package contents**

- USB 3.1 2-Port PCIe Host Adapter - Type-A
- Low profile bracket
- Quick Start Guide

## **System Requirements**

1. An available PCIe 3.0 4x or larger PCIe slot
2. Windows® 10 / 8.1 (32-/64-bit)
3. Windows® Server 2019 / 2016 / 2012 R2 / 2012 (32-/64-bit)

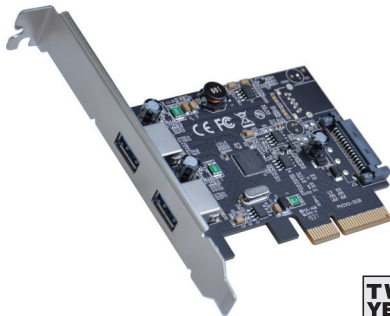

**\*Note:**

The host adapter will work with or without the SATA power connected. However, we recommend this connection if your USB devices are not recognized, lose connection to Windows randomly or all ports are connected to high current USB devices.
