

# HDMI Deep Color & full 3D Pattern Generator

P/N: AV-GM09A3-S1

## Safety and Notice

The **AV-GM09A3-S1 HDMI Deep Color & full 3D Pattern Generator** has been tested for conformance to safety regulations and requirements, and has been certified for international use. However, like all electronic equipments, the **AV-GM09A3-S1** should be used with care. Please read and follow the safety instructions to protect yourself from possible injury and to minimize the risk of damage to the unit.

- Follow all instructions and warnings marked on this unit.
- Do not attempt to service this unit yourself, except where explained in this manual.
- Provide proper ventilation and air circulation and do not use near water.
- Keep away the objects that might damage the device and assure that the placement of this unit is on a stable surface.
- Use only the power adapter, power cords and connection cables designed for this unit.
- Do not use liquid or aerosol cleaners to clean this unit. Always unplug the power to the device before cleaning.

The **AV-GM09A3-S1 HDMI Deep Color & full 3D Pattern Generator** is an advanced HDMI pattern generator with multi-format and multi-pattern support. Besides still and moving video test patterns, other features such as S/PDIF audio output and EDID analyzer are also provided. AV-GM09A3-S1 can support up to 8 channel LPCM audio with selectable sample rate. Another attractive feature of AV-GM09A3-S1 comes from bypassing HDMI input and allows users with more testing patterns for connected display or treats AV-GM09A3-S1 as an HDMI switcher. With portable size, AV-GM09A3-S1 is equipped four buttons and LCM screen to ease the control. This device provides a cost effective way to calibrate and test HDMI enable video devices and displays.

The unique feature available on this mini video pattern generator is the loop test, which can be used to estimate the condition of transmission line. The loop test provides signal monitor to watch the pixel loss over HDMI transmission and over time! When HDMI transmission becomes longer and the requirement on cable quality and HDMI extender becomes stronger, AV-GM09A3-S1 offers a simple way to evaluate either cables or extenders!

## Features

- **Supported output resolution**

NTSC 525@60, PAL 625@50, 720p@50,720p@59.94, 720p@60, 1080i@50, 1080i@59.94, 1080i@60, 1080p@23.97, 1080p@24, 1080p@25, 1080p@29.97, 1080p@30, 1080p@50, 1080p@59.94, 1080p@60  
Bit Rate: up to 2.25 Gbps  
Resolution: 24/30/36 bits

- **Video Patterns**

100% Color Bars, Borderline, Random Noise, Check Field, Black, Vertical Lines, Black / White alternate fields, Full Grey / Full White, Black to White Gradient, Random Generator for all still patterns, moving squares, white noise, inverse effect with still pattern, Scrolling Title (see Appendix for illustrations)

- **HDMI 3D video patterns Supported output resolution**

3D video standards include frame packing, top & bottom, side-by-side half, side-by-side full, frame sequential, and line-by-line.

- **Audio Patterns**

Up to 8 CH LPCM [I2S] audio encoder, S/PDIF[IEC60958], audio mask

- **Loop Test**

A solution to estimate the Quality of connected cable or HDMI extender

- **AVI Info editor**

- **EDID analyzer**

- Restorable Settings
- LCM Display

# Specifications & Package Contents

Model Name		AV-GM09A3-S1	AV-GM09B3-S1
<b>Technical</b>			
Role of usage		Pattern generator	
HDMI standards		HDMI Deep Color & full 3D	
Video bandwidth		6.75Gpbs	
Video support		[Full HD] 1080p@50/59.94/60 [HD] 720p50/59.94/60, 1080p24/30, 1080i50/59.94/60 [SD] NTSC@59.94Hz, PAL@50Hz HDMI 3D video	
HDMI bypass		Yes	
Output impedance		75Ω	
Audio support		8 CH LPCM/ S/PDIF	
PCB Stack-up		4-layer board [impedance control — differential 100Ω; single 50Ω]	
Input		2x HDMI	1x HDMI + 1x RJ45

**Down Button:** Choose the next menu item

AV-GM09A3-S1 offers the unique estimator for evaluating the quality of cables or extenders. Users can simply connect the cable or extender under testing to AV-GM09A3-S1 and the built-in loop monitor will examine the video pixel by pixel! The measured statistics is displayed on LCM and offer useful information for building up robust A/V systems with HDMI backbone.

## 1. Test video

The designed test video is bursts, and user can turn on the test video for preview without running the test.

## 2. Burst width

AV-GM09A3-S1 offers 15 different widths for different situations with 24 bit 1080p@60 video resolution.

## 3. Loop test

With appropriate connection, AV-GM09A3-S1 can estimate the quality of connected cable or extender, and the Pixel Error Rate will be updated every 10 seconds.

### Application Illustration :

AV-GM09A3-S1 offers the most convenient way for users to check, copy, and analyze the EDID. Users can directly check the EDID of the connected byte by byte on AV-GM09A3-S1 or save the monitor's EDID into flash! In addition, users can send the saved EDID in the flash through RS-232 to hyper terminal with the specified baud rate.

## 1. Default EDID

There are basically two sets of EDID for AV-GM09A3-S1, one for default and the other for user's use.

The default EDID is showed as follows:

```
0x00,0xFF,0xFF,0xFF,0xFF,0xFF,0xFF,0x00, 0x35,0x34,0x10,0x20,0x00,0x00,0x00,0x00,  
0x20,0x14,0x01,0x03,0x80,0x34,0x21,0x78,0xEE,0xEE,0x91,0xA3,0x54,0x4C,0x99,0x26,

```

## 2. System EDID

The EDID of AV-GM09A3-S1 is basically for HDMI inputs. In order to have appropriate EDID for HDMI sources, users sometimes need to use different EDID for different scenarios or application.

By entering the following menu state, force AV-GM09A3-S1 to use default EDID.

If users would like to use the EDID learned from monitor, please enter the following menu state.

Menu-11 EDID  
Sys Use Saved: Undo#:

### 3. Save monitor's EDID

Users can read and save monitor's EDID by entering the following menu item.

Menu-11 EDID  
Saved (00-03):

When Enter button is pushed, 256 bytes of EDID data will be sent to the serial port with the specified baud rate.

1. AV-GM09A3-S1 only supports I2S and S/PDIF audio formats. For audio packet, users can setup different audio format flags in audio packet for debug purposes. AV-GM09A3-S1 will output the chosen audio format, either I2S or S/PDIF, according to the mode section of 03-Audio.
2. Same to MPEG info. The MPEG info is designed for debugging purpose and AV-GM09A3-S1 will NOT generate any compressed video or audio.

- Built-in Video Patterns

The SELLER warrants the **AV-GM09A3-S1 HDMI Deep Color & full 3D Pattern Generator** to be free from defects in the material and workmanship for 3 years from the date of purchase from the SELLER or an authorized dealer. Should this product fail to be in good working order within 3 years warranty period, The SELLER, at its option, repair or replace the unit, provided that the unit has not been subjected to accident, disaster, abuse or any unauthorized modifications including static discharge and power surges.

Unit that fails under conditions other than those covered will be repaired at the current price of parts and labor in effect at the time of repair. Such repairs are warranted for 90 days from the day of reshipment to the BUYER. If the unit is delivered by mail, customers agree to insure the unit or assume the risk of loss or damage in transit. Under no circumstances will a unit be accepted without a return authorization number.

The warranty is in lieu of all other warranties expressed or implied, including without limitations, any other implied warranty or fitness or merchantability for any particular purpose, all of which are expressly disclaimed.

Proof of sale may be required in order to claim warranty. Customers outside Taiwan are responsible for shipping charges to and from the SELLER. Cables are limited to a 30 day warranty and cable must be free from any markings, scratches, and neatly coiled.

The content of this manual has been carefully checked and is believed to be accurate. However, The SELLER assumes no responsibility for any inaccuracies that may be contained in this manual. The SELLER will NOT be liable for direct, indirect, incidental, special, or consequential damages resulting from any defect or omission in this manual, even if advised of the possibility of such damages. **Also, the technical information contained herein regarding the AV-GM09A3-S1 features and specifications is subject to change without further notice.**
