3. After entering app, click home icon in the lower left corner of UI, and select "Add device" then select universal remote device.

- 4. Long press the smart switcher select button for 10s to reset the Wi-Fi module till the states LED light starts to flicker quickly.
- 5. When the states LED flicker quickly, click the operation confirmed option and then click NEXT.
- 6. Select the Wi-Fi you want to connect to (only 2.4 GHz band Wi-Fi is supported), don`t recommend the guest mode Wi-Fi to avoid the matching issue with the smart switcher and the phone or other devices via the app, and then enter your password and click Next.

7. When matching, a matching progress 0 to 100% will be displayed on the mobile phone's app. When matching is connected, the LED status light will flicker quickly to slow flicker and finally not flicker. When matching is completed, you can click smart switcher icon from the HOME page and enter the smart switcher control UI. You can control the smart switcher via the app UI at any places which can connect to Ethernet normally.

# Troubleshooting

Problems	Causes	Solutions
Power light is off and product is not working	ls the power adapt- er properly con- nected	Please check if the power adapter is connected properly
Screen splash	HDMI cable may not be HDMI 2.0 speci- fication or the cable is too long	Please use the standard HDMI 2.0 cable, the input/ output cable length does not exceed 5M 4K/60Hz 4:4:4, 4K@30Hz/1080p can reach 10M to 10M
Can`t match the smart switcher and the phone or other devices via app	Maybe the smart switcher and the phone is not closer as recommended with the router when matching	Please keep the smart switcher and phone which used to match and control the smart switcher as closer as possible to the router. And we don`t recommend to use the guest mode Wi-Fi to matching
Can not control the smart switch via app via phone or voice via Alexa	Maybe the match- ing between the smart switcher and the phone has not finish yet, and the skill of the Alexa doesn`t enable the app to activate yet.	Please matching the smart switcher and the phone follow the steps as "To match the Smart Switcher with the phone with app" and enable the app skill of the Alexa follow the steps as "To activate Skills"
